

Dishwasher and Washing Machine Cleaner

AlmaWin cleaning products are convincing through best quality regarding protection of the environment, dermatology and efficiency. Our ecological ingredients are very skin mild and gentle to the skin and they are successfully dermatologically tested. Our ingredients are based on raw materials of vegetal and mineral origin – if available certified organic. AlmaWin renounces on synthetical colorants, perfums and preservatives, on petrochemical ingredients and on nanotechnology. All ingredients are bio-degradable and of natural origin.

Ingredients:

<5% anionic surfactants. Further ingredients: citric acid.
100% of the total of the ingredients are of natural or mineral origin.

Characteristics:

The machine cleaner enables you to deeply clean your dishwasher or your washing machine. It removes limescale, fat, dirt, deposits and bad smells, especially in places that are difficult to access, such as the drum, the inside parts, the spray arms, the pipes, the heating rods etc.

The regular use protects your machine ensures an energy saving use increases the optimal performance and extends the lifetime of your machine. Also for your washing machine.

Dosage and application:

in the dishwasher:

1 bag = 1 application.

Empty the machine. Fill the content of the bag into the dosing department. Close the dosing department. Left over cleaner just give into the machine and shut the door. Start a washing programm with high temperature and let run.

in the washing machine:

First cleaning: 2 bags

Regular cleaning (depending on frequency of washing): 1 bag

Fill in the cleaner into the main dosing department of the machine. Choose a main washing cycle (at least 60°C) without pre-washing, let run without detergent and without laundry. Afterwords you can directly start washing again.

product sizes:

100g bag - 1 application

200g carton: 2 x100 g bags: 2 applicatons in the dishwasher or 1 application in the washing maschine
